

## Biological & Trace Evidence

For the Crime Scene Investigator

### Oswego (IL) Police Department

November 27-29, 2023

This is a three day hands-on workshop designed for the crime scene investigator responsible for documenting and collecting biological and trace evidence located at a crime scene.

The registration fee includes all materials used in the class.

The small class size of this workshop is meant to allow students ample time to work with processing and recovery techniques and to permit the instructors to closely evaluate each student's work.

Upon receipt of the registration form, a confirmation notice will be sent including directions to the class site and a list of equipment that the student will need to bring.

Topics covered include:

- Safety Precautions & Equipment
- OSHA Bloodborne Pathogens Standard
- Conventional & Mitochondrial DNA
- Hair, Fiber & GSR Evidence
- Presumptive Testing & Enhancement
- Light Source Applications
- Using CODIS & NDIS
- John Doe Warrants
- Crime Scene Exam
- Collection & Packaging Techniques
- Documentation Through Photography
- Simulation Exercises
