

Footwear & Tire Track Evidence

For the Crime Scene Investigator

Skokie (IL) Police Department

October 23 – 25, 2023

This is a three day hands-on workshop designed for the street technician responsible for documenting and collecting footwear and tire track evidence located at a crime scene.

Instruction is a balanced blend of classroom lecture and hands-on practical exercises with a strong emphasis on photography.

The small class size of this workshop is meant to allow students ample time to work with processing and recovery techniques and to permit the instructors to closely evaluate each student's work.

Upon receipt of the registration form, a confirmation notice will be sent including directions to the class site and a list of equipment that the student will need to bring.

For more information go to imprimus.net/footwear or call us at 847-804-8420.

Topics covered include:

- Scene Exam
- Event Reconstruction
- Impression Dynamics
- Photography Techniques
- Casting Techniques
- Recovery of Dry & Wet Origin Impressions
- Contaminated Impressions
- Chemical Enhancement Techniques
- Static Lifting Devices
- Case Law
- Obtaining Exemplar Impressions
- Vehicle Database Search
- Footwear Database Search
- Case Studies
